## Recitals

This Amendment No. 1 (this "Amendment") to the Amended and Restated Limited Partnership Agreement of Obrelund Capital Partners Fund III, LP (the "LPA") is entered into as of July 1, 2026, by and between Obrelund Capital Management III, LLC (the "General Partner") and the undersigned Limited Partners.

WHEREAS, the General Partner and Limited Partners desire to amend the LPA to modify the carried interest rate and related distribution waterfall provisions;

WHEREAS, the General Partner has represented that this Amendment reduces the carried interest rate from 25% to 20%, which it has characterized as LP-favorable;

NOW, THEREFORE, in consideration of the mutual agreements herein, the parties agree as follows:

## Summary of Amendment

This Amendment modifies Article IV (Distributions) and Article V (Carried Interest) of the LPA as follows:

| Provision | Prior Language | Amended Language | LP Impact |
|---|---|---|---|
| Carried Interest Rate | 25% of Net Profits | 20% of Net Profits | Favorable (lower rate) |
| Preferred Return / Hurdle | Per individual Side Letters (8% for most LPs) | ELIMINATED — no preferred return in any circumstance | ADVERSE (no hurdle) |
| GP Catch-Up | N/A (no hurdle in base LPA) | N/A | No change |
| Effective Date | N/A | All investments made on or after July 1, 2026 | Applies to new deals only |

## Economic Illustration — Impact Analysis

The following illustration demonstrates the economic impact of this Amendment on a hypothetical $100M investment with 2.5x gross return ($250M proceeds):

### Scenario: Old Terms (25% carry, 8% hurdle)

| Step | Amount | LP | GP |
|---|---|---|---|
| Return of Capital | $100M | $100M | $0 |
| Preferred Return (8% x 3 yrs) | $24M | $24M | $0 |
| GP Catch-Up (0% — no catch-up) | $0 | $0 | $0 |
| Residual (75% LP / 25% GP) | $126M | $94.5M | $31.5M |
| **TOTAL** | **$250M** | **$218.5M** | **$31.5M** |
| **LP Return** | | **$218.5M on $100M = 2.19x** | |

### Scenario: New Terms (20% carry, NO hurdle)

| Step | Amount | LP | GP |
|---|---|---|---|
| Return of Capital | $100M | $100M | $0 |
| Preferred Return | $0 | $0 (eliminated) | $0 |

| | | | |
|---|---|---|---|
| Residual (80% LP / 20% GP) | $150M | $120M | $30M |
| **TOTAL** | **$250M** | **$220M** | **$30M** |
| **LP Return** | | **$220M on $100M = 2.20x** | |

**Note:** While the LP receives marginally more in this scenario (2.20x vs 2.19x), this example uses a high-return scenario. In lower-return scenarios (e.g., 1.5x gross), eliminating the hurdle is significantly worse for LPs because GP carry accrues immediately above cost with no preferred return threshold.

### Lower-Return Scenario: 1.5x gross ($150M proceeds)

| Terms | LP Receives | GP Carry | LP Multiple |
|---|---|---|---|
| Old (25% carry, 8% hurdle) | $139.3M | $10.7M (carry only above hurdle) | 1.39x |
| New (20% carry, NO hurdle) | $130M | $20M (carry from first dollar) | 1.30x |
| Difference (LP worse by) | $(9.3M) | +$9.3M to GP | (0.09x) |

## Amended Article IV, Section 4.2 — Distribution Waterfall

The following text replaces Section 4.2 of the LPA in its entirety. Additions are shown in underline; deletions are shown in ~~strikethrough~~:

(a) **Return of Capital.** First, 100% to the Limited Partners, pro rata, until each LP has received cumulative distributions equal to its aggregate capital contributions. [*Unchanged.*]

(b) ~~**Preferred Return.** Second, 100% to the Limited Partners, pro rata, until each LP has received a cumulative preferred return of eight percent (8%) per annum, compounded annually, on its contributed capital.~~ [**DELETED — no preferred return applies under this Amendment.**]

(c) **Carried Interest.** Thereafter, ~~seventy-five percent (75%)~~ eighty percent (80%) to the Limited Partners, pro rata, and ~~twenty-five percent (25%)~~ twenty percent (20%) to the General Partner as Carried Interest.
